#### Unity asset - Coffee Auto Patcher System v1.0.34:

Introducing the Coffee Auto Patcher Patching System—an automated solution designed to seamlessly deliver updates of your game to players without any manual intervention.

- Customizable and Flexible: Tailor the Coffee Auto Patcher to your specific needs and preferences. It can be integrated with any CDN or File Host, with additional setup guidance provided for Amazon S3.
- Rapid Deployment: Utilize the included Deployment application to effortlessly deploy updates to Amazon S3 with just one click. This enables you to roll out new builds swiftly and gather feedback from players and testers promptly.
- Comprehensive Guide: Access a detailed PDF guide covering the setup process for a new Amazon S3 account and configuring the Coffee Auto Patcher for manual Patch Deployment to any CDN or Filehost.
- Platform Compatibility: Seamlessly integrate the system into Windows, Linux, or Mac platform projects in under 5 minutes, ensuring versatility and ease of use across different environments.
- User-Friendly: Simplify the setup process by importing the Coffee Auto Patcher into your project and adjusting your desired options effortlessly.
- Bandwidth Optimization: The Coffee Auto Patcher intelligently downloads only the necessary file updates for players, conserving bandwidth and ensuring swift updates for your clients.

With the Coffee Auto Patcher, streamline the update process for your game and ensure that players always have access to the latest improvements and content without hassle.
