

555 animated icons version 12 – after effects (Videohive 5586340)

2025-02-10 17:04:28 label 我要反馈 下载页面

The Animated Icons project is a set of flat icons that are designed to bring the necessary life to any project they are added to. The concept was influenced by precision and perfection to ensure maximal satisfaction of the user.

Each icon comes with its own unique build-up animation that is custom-designed and repeats indefinitely. Simply drag and drop the selected icons into your project, and set the colors you want and (optional) shadow with only a couple of clicks and you're accomplished! There is a standard color scheme for every icon, however, you are able to make some exceptions and select the colors of each symbol. Each icon has sound effects.

How to create icons in the project and apply the desired color?

You can create a project using "555 animated icons version 12 – After Effects".

What is animated icons – After Effects?

In Adobe After Effects, the term "animated icons" pertains to icons or symbols that have been brought to life through animation. After Effects is a widely used software application specializing in motion graphics, visual effects, and video compositing. These animated icons offer a creative means to introduce visual engagement and interactivity into diverse digital media, ranging from videos and presentations to websites and more.

The versatility of animated icons is noteworthy. They not only enhance the visual appeal of content but also convey concepts and actions more effectively, ultimately enriching the overall user experience. Adobe After Effects is a favored choice for crafting these animated icons, thanks to its robust suite of animation and motion graphics tools.
