#### 3D Lettering Grids and Brushes - 280366136:

The "3D Lettering Grids and Brushes" kit for Procreate offers tools for creating cool, custom lettering on an iPad.

It includes 26 grid stamps and PNG grids in various styles, along with 17 brushes—5 outline brushes and 12 grain brushes—to help outline, fill, and shade letters.

The set is easy to use, with grids guiding your lettering and brushes adding texture.

The brushes are exclusively compatible with the Procreate app and will not work with other graphic software like Adobe Photoshop.
