The Matrix Opener (Videohive 36714258) - AE Project: This is another After Effects template from my "MATRIX" collection. It's simple and well-organized. You can easily alter the color, font, and or font in the Matrix background. There are a variety of options for the Matrix background that you can modify, such as Matrix Emitter Size, Matrix Particles/sec, Matrix Size, Matrix Density, etc. These customizations are all possible to complete in one easy step by using the Customization Controls (video instructions included). Simply type in your text, drop the audio and then click render.

- High-resolution Full HD (1920x1080)
- Simple customizing process (Customization Controls are included)
- Video tutorial included
- No plug-ins from third parties are required for the pre-rendered version.
- Plug-in for Trapcode required the original version
- 5 and Compatibility with CC
