AutoMatte v1.0 Full Pre-Activated

2025-02-10 17:01:12　　label 我要反馈　　下载页面

AutoMatte batch pre-composes RGB multi matte, into Person Pre-comps using a translucent background.
AutoMatte is a utility to Aid with 3D compositing, by Automatically batch pre-composing RGB multi matte into person pre-comps using a translucent background. This enables you to utilize the mattes as adjustment layers, in addition to resources for different plugins.

AutoMatte Permits You to resize every new pre-comp, along with Rename the document with international and per-channel prefixes and suffixes.

- 1.0 (Current version) - Jul 15, 2018
- First release.
