- Premiere Pro / MOGRT Project Template, which can be used to broadcast and web-based; for television spots and news openings (like in the tech show or social media) as well as gaming or events involving e-sports, twitch intro, and more. Utilize the various designs, which all feature sleek smooth transitions, stylish and minimal design for the title. Logos and lower-thirds graphics are also available, all in custom colors.
- Watch the latest styles of TV and YouTube shows from renowned channels such as WIRED, The Verge, or CNET You can also get similar graphics packs for your own show on sports, music, and news, as well as technology, history, science gaming, fashion and many more.
- Four dynamic short intro variations, with simple designs with a simple and vibrant tone. These intros by themselves, are ideal for short commercial sequences, rapid transition reveals animations, and kinetic typography projects or for a tempo-driven promo. The four versions can be used without footage.

Premiere Pro Template Features:

- 4 DYNAMIC OPENERS:10
- 4 LOWER THIRDS Logo:5
- PreMIERE Pro Project and MOGRT files
- Super Simple and Fast Installation
- Universal Colors and Features
- Video Tutorial Also Included
