How To Start A Portrait Drawing 'Lightning Fast': Drawing a portrait is usually a scary experience. Making it fast is a more challenging technique in drawing; however, worry not; it's possible!

In this class, I'll guide you through the steps to start your portrait at the speed you've only imagined until now. The method is to edit all the unnecessary details you'll need to master to get it done and remove everything else slowing you down, like the details, textures, and pesky anatomy.

A variety of art fields require artists to draw fast and accurately. Professionals like 2D animators, narrative artists, artists for portraits, illustrators, caricature artists, and even concept artists require speed because of their speedy schedules.

Trust me when I say that, I'm sure. I've worked in all these roles throughout my career. One of the things I had a hard time with was speed. However, I've discovered certain secrets I would like to share with you so that you can enjoy drawing with more freedom and speed than you have ever had before.

If you're a casual sketcher who enjoys drawing portraits or an artist to become or be a professional, this short, intensive course will show you how to begin drawing at a rapid pace.

After this course, you will be capable of the following:

- Use simple shapes to start with and quickly establish a solid reading
