Its Lightning Pack serves swift justice to its name and shows no offense in fulfilling its duties. I'm pretty sure Morgan stood with awe in the midst of the storm's roar, and then threw one lightning strike down to earth, controlled it, and then masterfully applied it to the task. With a palette that is brimming with rich blacks, captivating neutrals, and a dazzling highlight The pack delivers a gritty elegance in the way you apply it. Each preset included in this thrilling pack is rich enough to entice you into a third dimension. In addition the fact that we've developed"The Lightning Toolkit' which contains two creative Profiles which add energy and warmth to dull images, allowing you to boost the power upon demand. Be aware that the use of these presets could cause frequently triggered goosebumps or even moments of hair-raising excitement.
