Tailored for both songwriters and beat producers, Groove Agent 5 is a comprehensive drum plugin that combines the best of electronic and acoustic drums. Featuring one of the most intricately detailed acoustic drum kits in Groove Agent, it is complemented by a diverse range of percussion, modern electronic drums, and extensive MIDI grooves. This makes Groove Agent 5 an inspiring rhythmic composition tool suitable for producers across various genres, including jazz, funk, rock, Trap, and EDM. Compatibility with VST, AU, and AAX plug-in formats ensures seamless integration with virtually any Digital Audio Workstation (DAW).

- Exceptional-quality acoustic drums and percussion.
- Dynamic electronic drums suitable for Trap, EDM, and more.
- Introduction of the new Decompose feature for crafting personalized signature drum sounds.
- Over 1,000 MIDI grooves covering a wide range of genres.
- Compatible with VST, AU, and AAX plug-in formats, ensuring versatility across DAWs.

Groove Agent 5 stands out as an essential tool, delivering exceptional acoustic and electronic drum sounds along with innovative features, making it a go-to choice for music producers crafting diverse genres.

- Experience a revolutionary leap in dynamic acoustic drums with Groove Agent 5, featuring innovative additions such as new electronic music kits, fresh MIDI grooves, live sampling, and the groundbreaking Decompose feature for crafting your distinctive drum sounds. With an impressive 32 velocity layers and an updated resizable user interface, Groove Agent 5 sets a new standard in drum production.
- The Kit introduces a stellar collection of acoustic drum sounds to Groove Agent, including the Pearl kick and snare, Yamaha Maple Custom toms, and Zildjian and Istanbul cymbals. Recorded at Berlin's Teldex Studios with high-end Neumann microphones, Kit's 47 articulations, five round robins, and up to 20 velocities ensure a versatile sound adaptable to any direction in your mix.
- For electronic music enthusiasts, Groove Agent 5 offers over 30 new kits crafted by top electronic artists like Rawtekk, Audeka, zKlang, and Joe Ford. Beat Agent kits now include not only beat patterns but also basses, small melody parts, and miscellaneous hits. Additionally, the Style Player is now compatible with Beat Agent, providing more creative possibilities.
- Songwriters can explore 20 new MIDI Styles in Groove Agent 5, covering diverse genres such as rock, progressive rock, blues rock, alternative rock, indie, funk, soul, jazz, crossover, and reggae. Played by renowned drummers and exclusively mixed for The Kit, these styles feature intros, outros, fills, and various complexities.
- Sound designers will find Decompose to be a dream tool, allowing easy separation of samples into tonal and noise components. Drag and drop these parts onto Groove Agent pads to layer your drums creatively, opening up endless possibilities. Imagine combining the tone of a fat 808 kick with the noise of a 909 snare or blending an electronic snare with the nuances of an acoustic hi-hat.
- Take your sound design further by changing the pitch envelope of samples, ideal for creating exciting drum sounds in genres like EDM. Combined with Decompose, you can now modulate the pitch of tone and noise separately—an exceptional and unique approach in working with drum sounds in Groove Agent 5.
