Unity Asset - On Rails Shooter System v1.30: Embark on creating your own On-Rails Shooter game with the ORS system! This comprehensive package provides a fully functional game that is ready for release straight out of the box. Moreover, it offers seamless customization options, allowing you to tailor the game to suit your preferences and engage your players even further.

Compatible with PC/Mac platforms, the game supports mouse, keyboard, and gamepad controls, ensuring a smooth and immersive gaming experience for all players. Programmed in C#, the ORS system boasts an array of features designed to enhance gameplay:

- Ready for release without any additional setup? Build and start playing!
- Supports multiple resolutions and aspect ratios automatically, ensuring compatibility across various devices.
- Offers versatile control options, accommodating players using a mouse, keyboard, or gamepad.
- Easily customizable settings enable you to adjust game difficulty and fine-tune gameplay elements according to your vision.

With the ORS system, you have the power to create an engaging On-Rails Shooter game that captivates players and delivers an unforgettable gaming experience.
