Design and Motion Char Kit Tiny VH-3352027: Design & Motion Kit Tiny allows you to create animated characters and animations. You can modify or create new content with the extensive library. It's fast and simple!

Modulated animations are very simple to use. You'll be amazed at the ease of creating your animations and characters if you really want to.

The rig's user interface highlights all movement options available to the character for animators.

You can choose to use the characters in either flat or shaded mode. This adds more personality to your creations.

To help you choose the right one for your needs, compare the features of each kit!
