Animation Mentor – Creature Animation on Demand

2025-02-10 17:15:14　label 我要反馈　下载页面

Did your training in animation teach you to create characters that walk, jump and run? It's time to master how to draw quadrupeds as well as flying creatures that prowl, jump and fly. In this lecture series, material, which is a selection of Animation Mentor's highly acclaimed Creature Animation Program -- animators who are professionals help you create the action sequence, move the action, draw a creature interaction, work with live-action footage, and incorporate live-action plates. Additionally, you are able to access the lectures whenever you need to via your streaming or mobile device.
