Create a realistic Coffee cup in Blender: Designed to guide you through crafting a lifelike Cinnamon Latte cup using Blender, this course caters to beginners and those with advanced Blender skills. Learn various Blender systems to achieve a charming aesthetic for your creation.

Hands-On Experience: Throughout the course, dive into hands-on experiences with fundamental modeling tools and commands. The step-by-step tutorials comprehensively cover the modeling process, ensuring easy follow-along with each displayed command in the video corner.

Beyond Modeling: Not just limited to modeling, the course takes you into the Shading tab of Blender, where you'll craft realistic materials. Explore texturing, particle systems, lighting, rendering scenes, and other features that add depth to your 3D modeling skills.

Beginner-Friendly, Yet Advanced: While the course is tailored for beginners, individuals with advanced Blender skills can still glean valuable insights. Whether you want to refine your skills or create an adorable scene, this course offers a holistic learning experience.

Interactive Learning: Connect and get your queries addressed through my social networks. Enjoy the journey of bringing this delectable drink to life through the art of 3D modeling.

What You'll Gain:

- Proficiency in basic navigation within Blender
- Mastery of the Particle system
- Creation of materials and utilization of essential nodes
- Completion of a project, covering modeling to rendering
