平面设计　　After Effects

**FredPelle Matrix for After Effects (Win, Mac):**

Easily apply retro computer screen pixel effects with just one click using Matrix. This intuitive tool allows you to preview and customize pixel styles in real-time on images, logos, footage, or textures. Adjust the pixel resolution, style, distortion, and brightness effortlessly through a user-friendly interface.

**how to use:**

- Choose your composition.
- Launch Matrix.
- Start customizing your desired look with real-time preview.
