Aescriprs Architect Pro V1.1.0 for Premiere Pro: You can easily add and move clips onto the Premiere Pro timeline!

How to use the appropriate tools for professional video editing needs?

You can use "Aescriprs Architect Pro" to edit.

Where can I download the product?

After subscription, You can download it for free from here.

Compatibility:

- Premiere 2023, 2022, 2021, 2020

- You can now choose to choose a bin as an insert item. This extension can randomly choose the clip from it.
- Fixed a problem by swapping clips near the locked track

- Include items in a timeline! (aligned by marker, if you have one.)
- Put clips in a row on one another or in the form of a row!
- Copy, cut, and paste clips without touching your targeted tracks!
- Slide clips upwards and downwards... (that's technical "down" for audio tracks)
- Change your position...
- ...and all this with one click!
- Don't worry about copying other clips. Let Architect Pro deal with it!

What is Aescripts Architect Pro?
