### A COLLABORATION WITH KATCH STUDIOS

Kat Gill has a keen ability to weave together disparate elements in her photos to create a strong and well-balanced intimacy. So when I was deciding where to take with our collaboration, I offered her as wide a frame as it was possible to play in, so that she could guide the way. What we came up with is a gorgeously diverse set of presets that are awe-inspiring regardless of the way or location you shoot. Boudoir as well as Wedding Photographers will be happy with this collection because they are focused on the rich and creamy look that flatters skin tones outdoors and indoors. Also included is a custom Skin Smoothing Brush for clarifying any odd spots while giving your photos an extremely polished appearance. In addition, to complete the package, we've carefully created presets for indoor and studio shoots which offer bold and soft natural tonality and still bring plenty of energy.

KAT Presets consist of six colors presets, two BW presets, as well as one custom skin Smoothing Brush.

The images below show how each preset affects an image that has the same color balance as well as exposure.

- Note that the custom Skin Smoothing Brush is compatible with Lightroom 4 or newer and Adobe Camera Raw, but is not compatible with Lightroom CC. Instructions for installation are below.
- These presets were designed to work with RAW images only. They work with Lightroom 4 5 6, and CC2015 Lightroom Classic with CC Lightroom CC and Adobe Camera Raw CS6 or newer.
- This is Desktop Presets(not mobile Presets).
