To search for similar products to Videohive Massive Portfolio Gallery 33549506,

- After Effects project - CS6 and all the newer versions are compatible
- No plugins are required - just optical flares that are pre-rendered
- Full HD resolution 1920x1080
- 100 placeholders. Be aware that there are 100 placeholders. However, only 75 are visible to the camera. The placeholders 76-100 can be seen hidden in the background.
- Complete documentation
- The audio track that is used for the project's preview (not included in the project)
- The project is built with thirty frames per second. It is rendered for this preview at 60 frames per second. You are able to export your final video to any frame rate you wish when you are creating the final video you just need to press Ctrl+K and switch the fps.

The customization process is very simple.

For more experienced Adobe After Effects users help is not really required.

The help file contains detailed information for new After Effects users and it includes several customizing steps as well as explanations of each step:

STEPS FOR CUSTOMIZATION:

- Include your pictures
- Subline your logo with subtitle text
- Add audio track
- Controls. This is extremely crucial!
- Other adjustments and particles are essential for the speed of rendering.
