Create Preset Pack by Jasmin Jade: The Jasmin Jade Create Collection features professional-grade presets, including grain adjustment created specifically for Lightroom or ACR. This unique, brand-new set of Presets features the best of Jasmin's selections. Inspired by film and color, Jasmin developed these presets to assist you in creating stunning scrolling images of your fantasies.

This Jasmin Jade Collection: Create Preset Pack contains 36 professional presets, including grain adjustments created specifically for Lightroom or ACR. The collection is unique in that it includes all of Jasmin's most-loved presets, but they're brand-new exclusive presets.

This collection is excellent for outdoor and indoor work, and it's perfect for natural and continuous indoor light. The presets can be used in various lighting conditions outdoors, including Golden Hour.

Jasmin is determined to share her top editing techniques and tools with you so that you can create your successful brand and create the stunning images you've always wanted to see. Inspired by film and color, She created these presets to help create the moody tone you're looking for when editing.

Jasmin's Tips to Improve Tone of the Skin Tone: After applying a preset, you can use the tool for targeting adjustment within Lightroom to alter the tone of your skin for your model!

Jasmin's tip: After applying a preset, you can lift the shadows before adjusting the exposure. Then, you can adjust your white balance to match the light you are using.

The Collection Includes:

- 31 Different Style Color Presets
- 5 B&W Presets
- Two Grain Adjustment Presets
- Technical and General Information
- It is essential to understand Lightroom and ACR to make the appropriate presets perform best for you.
