

### Carousel Maker (Videohive 32273770) - AE Project

2025-02-10 16:44:47    [label](#)   [我要反馈](#)   [下载页面](#)

**Carousel Maker (Videohive 32273770) - AE Project:** Carousel Maker This template/tool allows you to create your own carousel quickly in After Effects. You can add up to 20 items to this template. These items will be animated in the 3D carousel.

Of course, you can use images, videos, vector shapes, logos, texts, etc. Carousel Maker allows you to personalize your carousel any way that you want.

It doesn't matter if you use a traditional linear carousel or radial one. Combining all of the options can result in completely new animations. Because you can control the whole carousel animation using powerful expressions, keyframes are not necessary.

The template includes 3 animation options.

1. Continuous rotation: Items rotate in a continuous fashion, regardless of how fast you set them.
2. Rotate and Stop: This animation mode scrolls every item through the carousel in sequential order. You can adjust the rotation and stop times.
3. The carousel is able to move from one item to the next.

The Carousel Maker is easy to use and can be done quickly.

- 4K resolution
- Compatible with all AE versions (cc2014 and above).
- Universal expressions (it works in all AE languages)
- Video tutorial included
- No plugins required
- It can hold between 2-20 items

NOTE: This template does not contain pre-made animations, animated backgrounds, or graphics elements.
