**Keep It Sample Keep It Sample: Venus (WAV):** Tech-house producers, be prepared, Venus arrived! This brand-new pack is the perfect tool for producers of the next generation searching for the best mix of classic house music and futuristic tech grooves.

Tech-house is now a firmly established genre that has seen an international explosion! Venus is an all-in-one program with a wide selection of Serum presets and drum one-shots. It also includes melodic loops, top and drummer loops, fills that are ready to use as well as extra MIDI files.

We've also included project file templates (Ableton, FL Studio, Logic Pro X) that outline the layout for the track demo. Learn how to arrange and create a professional track!

Venus is a party spirit within you - not just for tech-house. explore the sound as a source of inspiration for other genres, like minimal tech-house techno, deep house, and even bass house.

If you love artists with names such as Fisher, Chapter & Verse, Chris Lake, John Summit, Michael Bibi, Cloonee, and PAWSA this collection is for you.

Take a look at the demo track as well as loops, and get ready to begin creating music that is featured on the main stage.

The content in the sample is 100 percent royalty-free.

Make it simple, do it quick!
