Premier System is an intricate financial application (ERP system) specially intended for small and medium businesses (SMB). The selection of PREMIER system modules covers all company agendas (market, commerce, and services, HR, manufacturing, technology, etc.) and together with expansion modules and technical options forms a compact construction suiting any business and any kind of business.

An advanced and total financial software (first Windows program) whose exceptional graphic layout and ergonomic surroundings provide a broad selection of selections to match the application to individual needs and needs of the customer.

The system modularity allows customers to select a version best meeting their needs for a data system. Thus especially tiny companies (individual users) may discover advantageous classes and packages that may function as a foundation for future expansion based on the increase of their enterprise. The high amount of universality and comprehensiveness predetermine the app is appropriate in almost any branch of industry.
