

Faizal Westcott – Cinematic Lightroom Presets (Mob, Desk)

2025-02-10 16:38:47 [label](#) [我要反馈](#) [下载页面](#)

This pack contains four presets for Adobe Lightroom which will give your images a cinematic feel. These presets can be used for Lightroom Classic CC (2019 – present), Lightroom CC (2019 – present), and Lightroom Mobile (use the DNG file in the folder).

How to Install

1. Download the ZIP file
2. Extract files
3. Open Lightroom and then go to Presets under the Develop Module.
4. Click on the + symbol
5. Click import presets
6. Find the location of unzipped preset files and then choose
7. You are now all set! The Preset window should now show the presets.

Notification:

Presets might not always appear in all preset windows. This can be fixed by visiting your presets settings webpage. You must ensure that your presets are compatible with each other.

How to use

These presets can be used as a starting point for your editing process. These presets should not be applied directly to an image. Here are some adjustments you can make after applying presets.

1. Adjust the exposure
2. Adjust the white balance
3. Highlights
4. If necessary, reduce saturation
5. HSL module allows you to fine-tune colors to meet your needs
