Unity Asset - The Vegetation Engine Amplify Impostors Module v12.5.0

2025-02-10 16:49:32　　label 我要反馈　　下载页面

Unity Asset - The Vegetation Engine Amplify Impostors Module v12.5.0:

The package is compatible with different Unity render pipelines. The Built-in Render Pipeline, Unity's default option with limited customization, is supported. Additionally, the package is compatible with the Universal Render Pipeline (URP), a Scriptable Render Pipeline known for quick customization and optimized graphics across various platforms. Moreover, compatibility extends to the High Definition Render Pipeline (HDRP), another Scriptable Render Pipeline designed for cutting-edge, high-fidelity graphics on high-end platforms.

For specific render pipeline versions:

- Standard Render Pipeline: Supported from version 2021.3 onward.
- Universal Render Pipeline: Compatibility spans versions 2021.3+, 2022.3+, and 2023.3+.
- High Definition Render Pipeline: Compatible with versions 2021.3+, 2022.3+, and 2023.3+.
