Dotted Pop Art Photo Effect 283650612:

The Dotted Pop Art Photo Effect is a Photoshop template that allows you to create vibrant, high-quality images with ease.

Featuring Smart Object layers, it offers full customization: just double-click the layer thumbnail, replace the placeholder image with your own, save, and watch the effect apply instantly.

The set includes two high-resolution PSD files (4500x3000 px and 3000x4500 px, both at 300 dpi), enabling easy creation of striking pop art designs with adjustable features for final touches.
