Here you can take a look at the before and afters and learn more about each of the presets, and even purchase the set! These preset give the appearance of a faded, low-contrast pastel-like effect to photographs! This pack of presets includes:

- **5 presets**
  - fade into credits
  - faded blue jeans
  - The faded glory
  - fades into black
  - Extremely faded

These presets are designed to be used in conjunction with raw images taken using DSL cameras. A Lightroom subscription and computer access is required for the use of these presets.

Lightens and brightens any image! This preset removes shadows and is an extremely low contrast

Works well is compatible with

- Photos with shaded images
- Dark photos
- photographs with blown-out backgrounds

A cooler-toned preset that gives a light and rustic appearance to any image.

Works well works well

- photos that appear warm or yellow
- direct sunlight
- Making and photographing colorful and stylized

The faded, pastel appearance adds to any photograph, along with more shadows and darker shadows.

- photographs were taken in the evening or daytime
- pictures in the sunlight
- Photos using black
- images that require contrast

It gives a beautiful and faded look to any image

- ideal for photos that have vibrant colors
- Photos with shaded images
- fades darker shades

Brightens any photo, and can transform every hue of the image! It adds fade to whites and gives a vintage appearance.

Works well is compatible with

- Photos of daylight taken in direct sunlight photos in shaded conditions
- Photos were taken indoors and outdoors

It adds a faded, pastel-looking look to any photograph, along with deeper shadows as well as more contrast.

- Photos were taken during the day or in the evening
- pictures in the sunlight
- photographs using black
- images that require contrast
