What is Film Split Screens + Kodak Film Burns - Vamify?

Vamify is known for creating and selling various video editing assets and resources, including video effects, transitions, and overlays, which are often used by filmmakers and video editors to enhance their projects.

"Film Split Screens" refers to a set of video split screen templates or presets that can be used to create a split-screen effect in videos. This effect divides the screen into multiple sections, allowing for the simultaneous display of multiple video clips or images.

"Kodak Film Burns" refers to a collection of film burn or light leak effects inspired by the visual characteristics of Kodak film stock. Film burns are often used to create a vintage or retro look in videos.
