BlenderMarket - All Material List v2.7.58: List all the materials as well as other data included within your project

Display Image/Material Light/Camera/Light World / Scene / Activity in a list. This enhances the efficiency of managing data.

Rename, Select, Assign, Delete, Check for paths, Broken links, etc.

There are also options for setting the color of the viewport and additional functions for images and materials.

- **Material List** - Simple settings for node parameters pop-up menus, replacements joining regular expression filters, and much more.
- **Image List** - Provides information about the path to the file and broken link status. It also lists the image's size and types of files, simplifying image information management.
- **Viewport Color** - Functions that are related to the color of the viewport. It makes objects easier to recognize. This can be used as a 3D Max.
- **Light List** Lists of lights, light probes, and Emission nodes.
