BlenderMarket – Floatify 1.0: Floatify is a plugin that allows the chosen objects to appear to float on the water.

It is an easy and simple addon for a straightforward task. Simply choose the object you want to realize and click on realize. This is all it takes.

How To Set Up?

- Install the addon by going to edit>preferences>install. After that, you will see the addon in a panel.
- Choose the object you wish to purchase and click to make it real
- Then, keyframe the ocean. Now you have an object floating.
