And also this document provides the ultimate and perfect tool for editors, motion picture designers, and each one who would like to provide the joys of flash result (such as 35mm movie flash) in his movie. The entire footage may be utilized as an over-layer (mixing style, Screen -- Lighten -- include) or using sapphire results such as MathOps or a straightforward soft luma key impact.

An informative example (mixing mode -- include) could be seen in the trailer video. Music not contained.
