It is more than just a GUNSHOT.

We also included sweeteners, such as mechanics of bullet impacts, as well as gun tails. Also, you will receive trigger files and impulse responses for every shot, allowing you to make it easy to place your gun in the desired location.

18-CHANNEL MULTITRACK Recordings for highly-flexible SOUND DESIGN

Any scene you'd like to sound enhanced you are able to mix and tweak these multitrack 18-channel recordings exactly the way you require. High-frequency microphones will provide precise and accurate material you won't want to miss out on. Increase your chances and get hands-on ASSAULT WEAPONS!

SECRET WEAPONS FOR ASSAULT DESIGNED

RAPID-FIRE FOR PROJECTS

You're working on projects that are time-sensitive, and you require an accurate weapon firing SFX in your mob contract killers, soldiers, snipers, and special force? The ASSAULT WEAPONS designed collection will provide the necessary matches. The collection contains greater than two gigabytes (680 sounds and 212 documents) in "ready to use" precise weapons sounds, created with our top sound design team all ready to arm your project.

DIFFERENT SOUNDSTYLES and VARIATIONS TO MAXIMUM DIVERSITY

The fully-automatic weapons (Assault rifles machines, submachine guns) include the sounds of single shots full-auto and bursts, all of them with four different constructed styles (**DISTANT | CLOSE**) to give you the most convenient and efficient choice for the scene you want to play. Each sound file has four different sound effects to give you variety in your choice of sound and also a more diversified soundscape.
