We've been filming wedding videos for many years, so we have a good understanding of the particulars of the image and how the presets look in different versions. Each preset was evaluated on wedding videos shot with different cameras, to ensure that they be as perfect as they can with the majority of DSLRs.

We are confident that this pack will assist you in creating and conveying the feelings and emotions you have captured in your videos.

Wedding Essentials Package available for Premiere Pro CC17 and higher.
