Detailed and Moody Landscape Looks

Made by Traveling and Experience photographer Emmett Sparling. These presets are ideal for your character and Landscape photography and can enable you to add amazing earth tones.

Here's a little from Emmett, "I'm a travel/adventure photographer based out of Vancouver Canada. The Majority of my photos have been removed in Nature near woods, mountains, and lakes. I also have a background in portrait Photography, therefore my presets function in the two genres. I've a slightly moodier Editing mode, while having pops of color in every shot."
