Hollywood LUTs – Blade Runner: Introducing our professional LUT collection inspired by the iconic movie Blade Runner.
This pack offers 3 LUTs carefully crafted to enhance different scenes: cold, warm, and dark.

Compatible with a wide range of software, including Adobe Premiere Pro, After Effects, Photoshop, Final Cut, and any other software supporting .3dl and .cube files.

Use these LUTs for videos and photographs for color grading, color correction, or general video and photo editing.
The pack includes three .3dl, three .cube files, and before and after example images to showcase their transformative effects.
