Persits AspJpeg v2.9.0.12149 (05 Mar 2020) + License Key
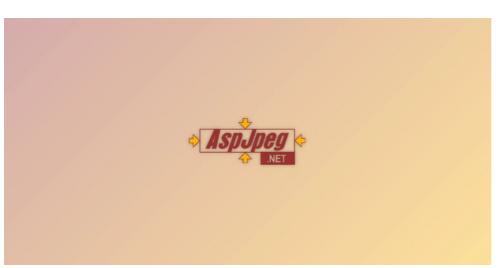

2024-12-18 23:03:30   label 我要反馈   下载页面

Persits AspJpeg is basically a server element that has the ability to assess the user and developer as well as the application of .NET with the use of the image management requirement. It has the capability to employ the ASP.JPEG.NET and the user can even create a high-quality thumbnail, logo stamp photographs and even to extract metadata in the images, cropping, enhancing, rotating as well as converting and at the same time other great deals to be mentioned. For the process of collection of the attribute the user has the ability to see the chapter one of the user manual. It should be noted that the AspJpeg.NET has the capability to make it possible for the user and developer in order to create a very high quality thumbnails of the images within a few lines of code. The first image can be in the format of GIF, JPEG, PNG and even TIFF. Despite the name, AspJpeg.NET has the ability to support not just the only JPEG, but the formats of BMP, TIFF, GIF, and last but not least PNG as well.
