MBxDC The Editorial Package Capture One Styles: Our first style pack was developed and sold exclusively via CaptureOne.com, which is available at our store.
It includes seven premium editorial presets with CaptureOne Pro running on MAC OS X or Windows!

Not for use on mobile devices.

- These styles offer a stunning, imaginative starting place
- Giving your photos a stunning stylized color appearance.
- Each photo is illuminated and photographed completely differently
- using multiple cameras; the style can appear different from our examples of images.
- However, don't get mad about it; just a tiny white balance and exposure tweaking will make you
- Excellent results in a matter of minutes.
