ArchvizTools MaxCutouts 1.0 for 3DsMax upto 2024

2025-02-10 16:39:47　　label 我要反馈　　下载页面

ArchvizTools MaxCutouts 1.0 for 3DsMax upto 2024: MaxCutouts is a program that can automate adding basic 2D Images in PNG to your scenes. With this program, you can render quick previews and final images with correct shadows using one render without having to composite all the elements in the future. It can be utilized in various ways to Archviz projects and saves the time of 3D Artists.
