AI Tools

- Fewer steps. More precision. Zero learning curve.
- Spotlight: Balance and let your photo stand out by brightening your subject or dimming the background.
- Light and Airy Assist Soften and brighten scenes that aren't ideal without compromising detail, to enhance your light and airy appearance.
- Dark & Moody Assist: Make your photos appear more neutral to moody using darker shadows and soft highlights.
- Skysave: Recover sky that has been overexposed, even through windows and branches, without affecting the rest of your image.
- Skin Smoothing Soften and smooth skin acne faster than you've ever before with Lightroom's advanced AI-targeting technology.

Specialty Tools

- Standard tools for correcting the most challenging images.
- Strobe Soften: Create a new world of film emulation within the studio by enhancing the micro-contrast of every Film's style for studio strobes and flash photography.
- Digital Noise Reduction Use just the proper quantity of noise reduction to provide our images with a fresh look without sacrificing details.
- Lens Correction: Repair the distortion and vignetting, reduce color fringing, and eliminate chromatic aberrations to improve every image's quality instantly.
- Auto Transform: Tired of the look of crooked buildings? Make your photos more appealing by correcting horizontal and vertical lines.

Film Inspired Tools

Create the illusion of Film.

- Six Tone Profiles Influenced by The Fuji Frontier film scanner, these tone profiles improve contrast while maintaining the look of the Film.
- Two-grain settings are available: Although our grain settings are grain-free, you can finish your look using medium-format grain or 35mm.

Bonus Tutorials and Education

We're here for you following the purchase. Included in your package are four raw images and the step-by-step tutorial.

- Six Film presets are available: These styles are perfect for portraits, weddings, and photography.
- 17 AI & Specialty Tools (Mastin Magic Toolkit(TM))
- 4 RAW images, starting tutorial
- Time-saving Mastin 3-Step Workflow(TM)

What is Mastin Labs' "Founder PLUS+ Lightroom Desktop Presets?

" Mastin Labs is a well-known brand in the photography industry, specializing in the creation of high-quality Lightroom presets that are designed to emulate the look and feel of various film stocks.

Lightroom presets, such as those offered by Mastin Labs, are widely used by photographers to enhance and stylize their images, create consistent looks across a series of photos, and speed up the editing process. They achieve this by applying a set of pre-configured adjustments to photos with a single click.
