**Sam Hurd – The Epic Grain Lightroom Preset:** Only available via the Sam Hurd Workshop Patreon Tier. His grain-based preset uses the newest Lightroom grain features, which are more flexible.

A few hours after receiving an offer from a NASA company, Sam dropped everything to take on the official news and celebrity photography photographer role in DC. Sam was immediately attracted to wedding photography as an opportunity to spread more creative ideas. His primary focus is on photography techniques that, while simple, could transform dull or difficult shooting conditions into unique possibilities for each photo taken.
