Fluid Paint

- This PS Action allows you to customize your photos with multiple-layer fluid styles. The effect will automatically be generated when you press the play button. Layer structure should be well-organized. You can save time and effort by organizing layers.

In Main File.

- One atn, one abr.
- RGB 300dpi 3500x3500 pixel resolution images.
- This action is compatible with Photoshop CS6, Photoshop CC14, Photoshop CC15, and higher versions.
- This action does not work with Photoshop CS4 or CS5.
- One file of assistance included.

There are a few things you need to know before you apply the effect

- Click on Layer panel/Layer panel Options. Check on "Add copy" to copied layers or groups
- You can't open a file whose layer isn't a background if you do. Please go to layer/New/background
- Click on image/mode/RGB colour/8bits channel.
- Please adjust the image size to 2000px(h), x 3000px (w) in 300dpi.
- If you are using another language photoshop, please go to preferences/interface/ text/ change this to English. This action only works in the English language. It won't work in any other language.
- This action is only available in the English version of Photoshop. You can change the language of any photoshop version to English, and then to your native language by using this method.
