Steelray Project Viewer v6.29.1

2026-07-19 14:36:36

Steelray Project Viewer provides a user-friendly solution for opening and viewing Microsoft Project files, offering ease of use once users become familiar with its features. With built-in functions facilitating project management and seamless information sharing among team members, the application proves valuable for keeping complex projects on track.

This Windows application allows users to open, navigate, print, and export Microsoft Project mpp files without the need for Microsoft Project. **Steelray Project Viewer** is the world's first project navigator and search engine, simplifying project exploration and information retrieval. It supports standard views from Microsoft Project, including Gantt charts, and offers features such as exporting to HTML and CSV and printing capabilities.

Beyond its simplicity and functionality, stands out for its cross-platform compatibility, with Windows, Linux, and Mac versions accessible directly from their website. This makes it a versatile tool for project management across various operating systems.

Key Features of **Steelray Project Viewer**:

1. **Open and View Microsoft Project Files:** Allows users to easily open and view Microsoft Project files (mpp files).
2. **User-Friendly Interface:** Once users become familiar with the application, it offers an easy-to-use interface for efficient navigation and utilization.
3. **Built-in Project Management Functions:** Incorporates built-in functions that aid in project management, facilitating task tracking and collaboration among team members.
4. **Project Information Sharing:** Enables seamless information sharing among team members, contributing to effective communication and project coordination.
5. **Microsoft Project Compatibility:** Allows users to open, navigate, print, and export Microsoft Project mpp files without requiring Microsoft Project software.
