Compatibility With Lightroom (October 2020 or later), Lightroom Cloud, Lightroom Mobile, and Photoshop.

The idea was born out of a desire to mix the best aspects of the digital and film worlds Our Film Emulation Collection contains 16 presets that recreate the look of seven of our most adored films.

Tested on a variety of skin tones, camera brands and subject matter these Lightroom presets have been made to help us capture the characteristics that we like from every film while providing ease of use to produce stunning results without the need to alter each parameter.

The following presets are available:

Cinestill 800T Nighthawk | Saturated with a blue cast to create a chilling and dramatic setting, perfect to shoot nighttime photos.

Cinestill 800T Portrait A flexible and soft style with cooler shade and spot-on skin tone

Fuji Pro400h-Landscape Natural and rich shades for a timeless style

Fuji Pro400h Portrait Extremely versatile with rich contrast, while retaining crisp, cool shadows.

Fuji Provia 100 Smooth and soft with a reduced tonal range that gives images a film-like style in a single click

Kodak Ektar 100 Landscape | A deep contrast, with a hint of purple and blue in the shadows

Kodak Ektar 100 Portrait Rich shadows with cool mid-ranges, reminding of photos from family vacations in the 90s.

Kodak Gold | Colors that are vibrant, yet subtle enough to allow for versatility

Kodak Gold - Alt | A little magenta and more bright highlights

Kodak Portra 160 Landscape Deep in color and contrast but not too gaudy.

Kodak Portra 160 Portrait Highly versatile in all scenarios with a particular focus on gorgeous skin tones

Kodak Portra 160-SGR Lower the contrast of its Portrait brother, with a touch of green under the shadows.

Kodak Portra 160 SMG • It has less in contrast than the Portrait version, with some Magenta shadows

Kodak Portra 400 - Landscape A bit lighter and a little bluer than its 160 equivalent

Kodak Portra 400 - Portrait A must-have for portraits of any kind, at any day, any place, by anyone

Kodak Portra 400 - Portrait Alternative A little moodier than the Portrait, with an edgier mid-range

NOTE: These preset use the Color Grading Panel which was introduced in October of 2020. These presets are still compatible with older versions of the software and .lrtemplate files are also included but the results could differ.
