

Blender Market – Onion Skin Tools v0.3.2

2025-02-10 16:47:47 [label](#) [我要反馈](#) [下载页面](#)

Onion Skin Tools is the first plugin that is functional and provides animators with onion skinning for objects within Blender's viewport. You can visualize the motion of your animation in real-time without moving the cursor on the timeline! There is no more animating in the dark!

Gfx plugin details of Blender Market – Onion Skin Tools

The product is in the **category from Blender Market**, for more information about this post you can click on the home page link in the sidebar.

To search for similar products to Blender Market – Onion Skin Tools,

Through Onion Skin Tools you can

- Generate onion skinning on any mesh-able object, and even complete multi-object objects in arbitrary frames or within an individual frame.
- Take your time when deciding on poses! Examine posts from previous and subsequent frames, side-by-side while you pose your creature or character rig in the frame you are currently on.
- Stop speculating! Check out the arcs of the action without changing the frame.
