Olga Gladkova – New Year’s lesson "The Magic of Impulse": Do you find capturing a stunning New Year's picture with artificial light challenging? Perhaps the Profoto source intimidates you, unsure of which buttons to press? Or maybe you believe that pulsed light negatively impacts bokeh? Put your fears to rest with this concise lesson addressing your concerns.

What You Will Learn:

- Five practical schemes for creating Christmas lights and achieving beautiful "bokeh"
- A comprehensive breakdown of settings and demystifying the seemingly complex buttons
- Nuances and insider tips to enhance your photography skills
- Immediate access to source files for a hands-on learning experience
- Post-processing techniques for optimizing your captured photographs

This short lesson is designed to eliminate apprehensions, providing practical insights and guidance for capturing stunning New Year's pictures with artificial light. Gain confidence in navigating your equipment, explore creative lighting schemes, and refine your post-processing skills for captivating results.
