What is Drag and Drop Moon Overlays?

"Drag and Drop Moon Overlays" a graphical design resource that allows users to enhance their photos or images with a moon overlay by simply dragging and dropping it onto the desired image. These overlays are pre-designed graphical elements of the moon, often with varying phases or artistic effects, and they are created to be easily incorporated into existing visuals without the need for complex editing.

The term suggests a user-friendly and straightforward process where individuals can effortlessly apply moon overlays to their images by dragging the overlay file and dropping it onto their photo editing software or directly onto the image canvas. This type of resource is commonly used in digital design, photography, or artistic projects to add celestial and atmospheric elements to pictures, creating a specific mood or ambiance.
