What are inspired Photoshop Actions?

"VSCOcam-inspired Photoshop Actions" refers to a set of Adobe Photoshop actions that aim to replicate the look and feel of photos edited with the VSCOcam mobile app. VSCOcam (now known as VSCO) is a popular photo-editing and sharing app that offers a wide range of filters and adjustments to enhance the aesthetics of photos. These actions are designed to achieve similar visual effects in Adobe Photoshop, allowing users to apply VSCO-style filters and adjustments to their images.

These Photoshop actions are particularly popular among photographers and social media enthusiasts who want to achieve a consistent and stylized look for their images. They are a convenient way to replicate the aesthetic of VSCO-style photo editing within the more robust editing environment of Adobe Photoshop. Users can apply these actions to their photos with a few clicks to quickly achieve a desired visual style.
