

## Kathi & Chris – KCP Presets 2022 Final Edition

2025-02-10 17:07:13 [label](#) [我要反馈](#) [下载页面](#)

Simple, fast, and extremely amazing. This is how you can describe our brand-new Lightroom & Photoshop (ACR) Presets 2022. With more than 12 years of expertise in processing images and six years of processing tests by photographers from all over the world for the previous presets ensure that our styles are perfectly coordinated with almost all cameras. To make it as simple for you to utilize the presets, we've developed an established software system to ensure that you are able to easily get great results. Alongside the import instructions, you'll get a complete application video. You can begin right away and you're well prepared to give your images an amazing individual appearance.

The presets we offer in 2022 are comprised of three distinct collections with distinct styles. The collections are split into different levels of intensity with overlay and intensity levels. This lets you quickly and quickly determine the ideal balance for your RAW photo and also add additional features like enhancing skin tones or reducing noise within a matter of minutes. All you need to do in order to prepare your image is to fix the exposure and white balance should you need to. These steps are easily detailed in the accompanying video.

All of our current photos are altered using this latest pre-set pack for 2022. If you're also looking to give your photos this stunning appearance quickly and easily, then are now in a position to do it. If you're unsure or have experienced bad experiences with other service providers previously, we're glad to provide an unbinding trial editing of your own images. Further details on that are below.

The presets are ideal for wedding photography, both indoors and outdoors. Other types of photography can be edited too.

The presets are built on Sony, Canon, Fuji, and Nikon RAW files. If you have a different system, you are invited to send us your test images. Learn more information about this below.

### IMPORTANT!

Because of the new masking feature the 2022 presets will only can be used to their fullest extent when used with Adobe Lightroom Classic 11.0 and higher or with Adobe Photoshop 2021 (ACR) or greater (included as part of the Adobe Photo subscription).

### Scope:

- 3 color designs with 23 sub-presets that have been modified for any situation (indoor/outdoor)
- Over 40 overlay presets are available for easy customization of the look
- 7 white and black looks (indoor/outdoor)
- 22 minutes of video that includes application examples to help you get started from the beginning (German dialect, English subtitles)
- Instructions for importation in the video (German dialect, English subtitles)

### Important user info:

For the preset packs, you will require Lightroom Classic 11.0 or higher or Adobe Photoshop 2021 (ACR) or greater. Adobe Lightroom and Photoshop are not part of the package however they must be present in the market or purchased as a separate product. The software can be used the both Windows PC and Mac OS. The preset is a digital product and is accessible as a download file through a download link. This is a desktop-based preset. Its use on mobile applications is only permitted to a certain extent. We are not responsible for this.

### What is Kathi & Chris – KCP Presets?

Kathi & Chris are popular photographers who have developed their own set of Lightroom presets for photo editing. These presets are likely referred to as "KCP Presets."
