Blender Market - Fit Lattice v1.8.0:

This Blender add-on simplifies fitting a lattice deformation cage around a mesh or meshes. It enables quick proportional adjustments of objects by automating the creation, sizing, and assignment of lattice modifiers in one click.

Users can configure the lattice's size and subdivisions easily while supporting multiple meshes simultaneously.

- **Quick Workflow:** Select objects and apply a lattice instantly.
- **Configurable Subdivisions:** Adjust the lattice's subdivision settings during creation.
- **Multiple Mesh Support:** One lattice can be applied to various selected meshes.
- **Presets:** Choose from predefined subdivision presets (e.g., 2x2x2, 3x3x3) or create custom presets.
- **Adjustable Rotation:** Apply a custom rotation to the lattice while fitting the mesh.
- **Quick Deforms:** Perform fast deformations like tapers with minimal effort.
