The NoamKroll.com Cinematic LUTs Blockbuster Bundle includes 12 strong looks which were constructed from the ground up to work with footage from just about any camera.

The LUTs included in your download package are .cube files, that's the industry standard file type for LUT management. In addition to the LUTs, you'll also get a 4 page PDF guide which will provide you directions for installing and using the LUTs using DaVinci Resolve, Adobe Premiere Pro, Final Cut Pro X, Avid Media Composer, and Adobe Photoshop.

Below is a breakdown of everything you may expect from the package:

BLOCKBUSTER

each one of these magnificent looks comprised in this pack is designed to supply the major budget aesthetic, all in their own distinct manner. Some seems unite trendy, slightly lifted shadows with hot highlights for that basic Hollywood "teal and orange" appearance, but others employ unconventional colour and contrast blends to produce an unmistakable stunning statement. Whether applied to a next thriller for that mythical blockbuster appearance or utilized on a stunning film to bring an electrifying vibrancy for your own scenes, these appearances will deliver exceptional results each time.
