Tropical Landscape Lightroom Presets By PhotoMarket:

10 Lightroom Presets for TROPICAL BEACHES

This collection includes 10 Lightroom presets that have been carefully created for tropical landscapes and flora and fauna. These presets will allow you to instantly enhance your photos, whether it's a sunset shot on a beach in South America, Africa, Central America, the Caribbean, or Southeast Asia.

Each preset is designed to target a different type of landscape, weather, and lighting situation. Please see the screenshots to see more information and a better idea of what you can do with the presets.

This product is also available in the "COMPLETE SHOP BUNDLE" with more than 25 products and 400+ Lightroom presets for landscape, nature, and travel photography.

Please Note: Every day in nature is different and each photographer uses their own settings so there is no 'one-click preset'. You will need to adjust the basic settings, especially the Exposure, Color-Temperature, and Blacks and Whites in the 'Basics' panel. Each preset should be used as a starting point.

- Compatible with Adobe Lightroom 4, 5, 6, and Classic CC for Mac and PC
- All presets are compatible with RAW and JPG images
- Digital download immediately after purchase
