- Folder Main Runes Photoshop Action
- Folder Main New Modern Photoshop Action

How do I configure Photoshop for use with action?

- Be sure to use your English version of Photoshop. Each action was designed and optimized to work using Photoshop's English version of Photoshop So ensure that you're using this version.
- Utilize your RGB mode and the color 8 bits. To test these settings Go to Image->Mode, and then check your settings for "RGB color" and "8 Bits/Channel".
- Make sure it is turned on "Add 'copy' to Copied Layers and Groups" is activated. This option is only applicable to CS5 and the later version of Photoshop. In the "LAYERS" panel, click on the menu icon, then go into "Panel Options ...", and ensure that "Add Copy to Groups and Layers Copied" is enabled.
- Make sure to use a photo that has 72dpi or greater. If you're using a photo that is less than 72dpi resolution, the action won't work properly. To correct this issue Go to Image > Image Size and raise the resolution.

How do I integrate my efforts?

- Open your photo
- Take the first action
- Save the result in an image
- Open the image that was previously saved.
- Second action: Play the second
